Printed in Australia

### START HERE

It is strongly recommended that you follow these step-by-step numbered instructions to set up and quickly begin using TutorTIMS-Student

## 2 INSTALL JAVA ON YOUR COMPUTER

Install JAVA from the [www.java.com](http://www.java.com) web site.

Look for "Java Software Download" and download the latest Java Runtime Environment (approx. 15MB) automatically to your computer.

Ensure that file association for "\*.jar" files is set to JAVAW.EXE on your computer.

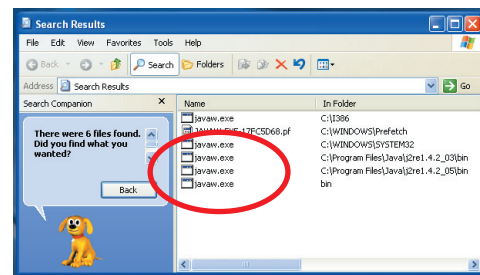

## 1 CHECK THAT JAVA IS INSTALLED ON YOUR COMPUTER

If you are not sure that JAVA is already installed, perform a search for the "javaw.exe" program file on your computer hard disk.

Click START > SEARCH and enter "javaw.exe" as the file to search for.

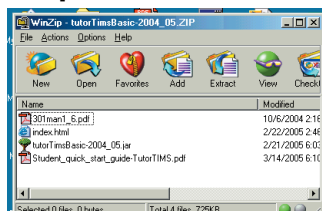

Proceed to STEP 3 if JAVA Runtime Environment is installed.  
(Version 1.4 or later).

Otherwise go to STEP 2 to install JAVA from the web.

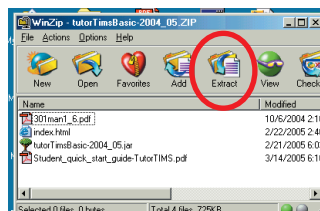

## 3 INSTALL THE TutorTIMS PROGRAM AND DOCUMENTATION FILES

• Open the TutorTIMS "\*.ZIP" file

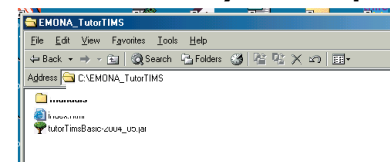

Double click the "\*.ZIP" file you have received from your professor.

• Extract the TutorTIMS files

Click **EXTRACT** to copy TutorTIMS to your destination folder.

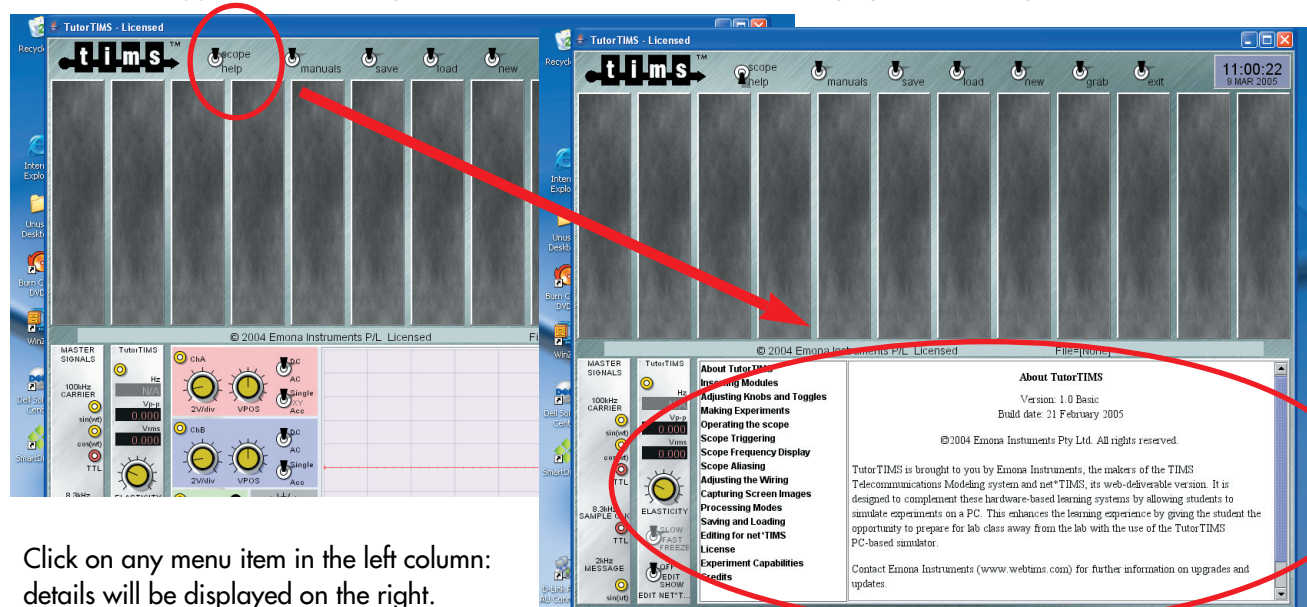

• TutorTIMS on your computer

TutorTIMS program (\*.jar), other files and manuals folder will be extracted and copied on your hard drive.

## 4 GETTING ON-SCREEN HELP

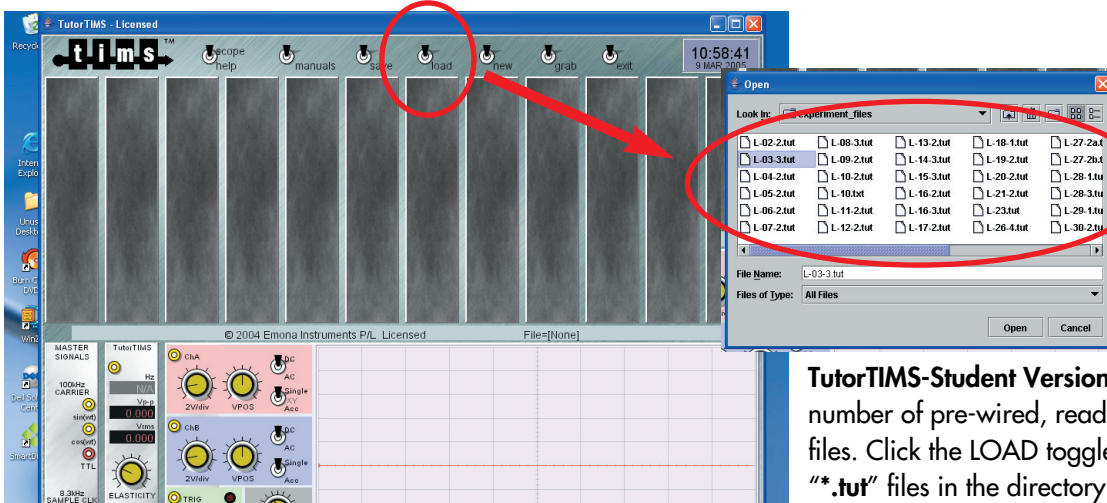

Click the HELP toggle switch: the help menu (left column) and details are displayed in the scope window.

Click on any menu item in the left column: details will be displayed on the right.

# 5 LOADING A TutorTIMS EXPERIMENT FILE

Click the LOAD toggle switch and locate the "\*.tut" file to load.

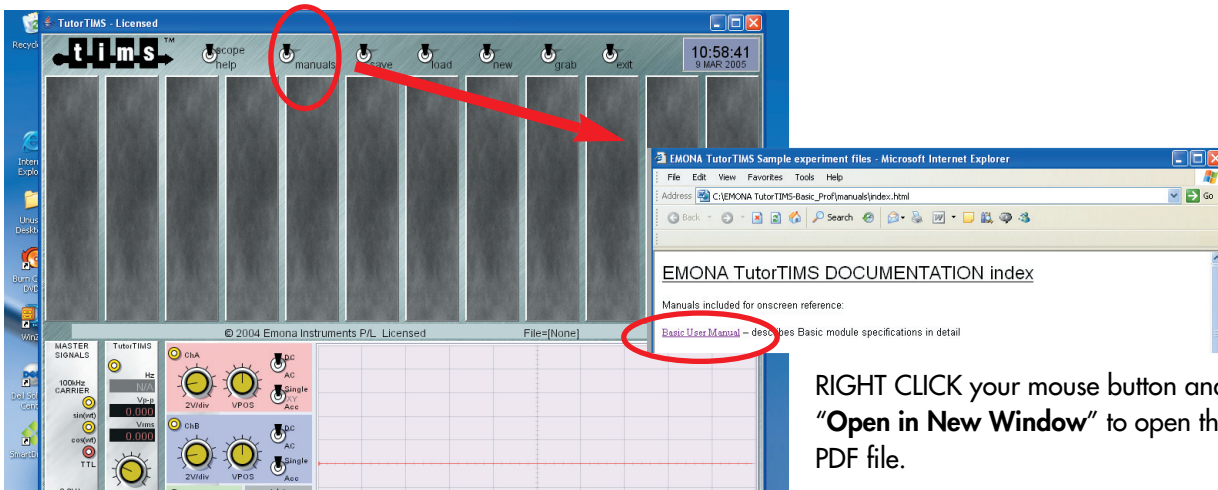

Example image only. Not all of the \*.tut files displayed here are included with TutorTIMS-Student. Contact your professor for additional \*.tut files.

**TutorTIMS-Student Version** includes a small number of pre-wired, ready-to-load, experiment files. Click the LOAD toggle switch and locate the "\*.tut" files in the directory you installed to.

# 6 USER MANUALS

Click the MANUALS toggle switch to launch the documentation INDEX in a web browser window. TMS USER Manuals are provided in PDF format.

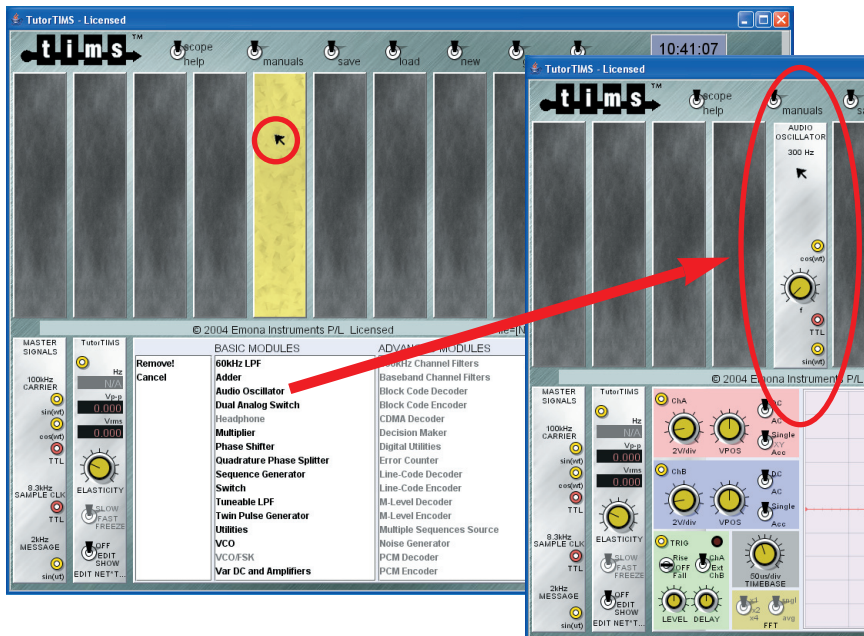

RIGHT CLICK your mouse button and select "Open in New Window" to open the manuals PDF file.

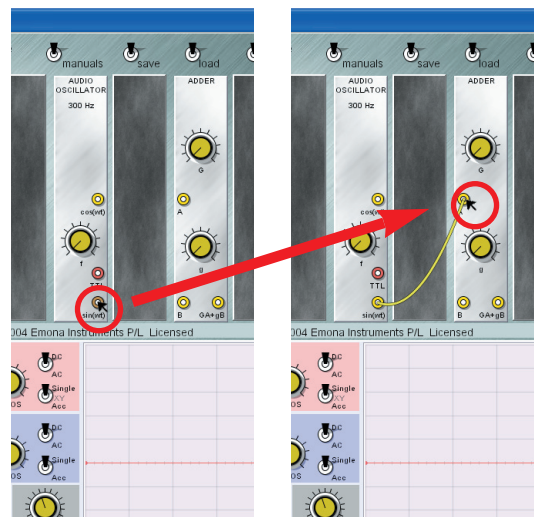

# 7 GETTING STARTED:

## • Selecting and inserting modules

RIGHT CLICK on any empty slot. Then click on the module of your choice.

## • Making connections

Click on any terminal. Note that the terminal changes colour.

Click on another terminal to make the connection.
